This little Quick Start Guide is everything you need to get started so that your **ESBS460X 460L Side by Side Refrigerator** keeps your food staying just as fresh as you are!

Get ready to use your new ESBS460X 460L Side by Side Refrigerator!

Unpacking Your Fridge

- **Packaging materials:** Remove all packaging materials, bottom cushions, foam pads and tapes from around and inside the appliance, tear off the protective film on the doors and refrigerator.
- **Suffocation:** Plastic wrapping can be a suffocation hazard for babies and young children, so ensure all packaging materials are out of their reach and disposed of safely.
- **Power cord:** Unwind the power cord to its full length and inspect it for damage. Do not use the appliance if it or its cord have been damaged or are not working properly.
- **Read the manual:** Read the manual to familiarise yourself with the appliance. Pay particular attention to the safety instructions.
- **Clean:** To remove any dust from transit and storage, clean the interior and exterior surfaces of the appliance with lukewarm water and a soft cloth. Dry thoroughly. Important: do not use harsh or abrasive detergents or powders as these will damage the finish.

First Time Use

When power is connected for the first time, the full display will be lit for 3 seconds. It will then enter normal operation display. By default, the settings for your refrigerator and freezer is 5° C / -18° C respectively. It is the best to wait 24 hours before adding food.

The Temperature Controls

After each Setting Key press, the temperature will adjust and the corresponding set temperature will flash on the display for 3 seconds. To alternate between setting the refrigerator temperature and the freezer temperature, long press the Setting Key for 3 seconds.

- **Super Cool:** This mode will operate for 6 hours rapidly cooling the refrigerator compartment.
- **Super Freeze:** This mode will operate for 24 hours rapidly cooling the freezer compartment.
